Welcome Message

Dear Colleagues,

It is our greatest pleasure to draw your attention to the 10th Global Breast Cancer Conference (GBCC 10), which will be held from April 8 (Thu) to 10 (Sat), 2021 in Seoul, Korea. As one of the biggest breast cancer conferences in Asia, the GBCC takes place every year to gather people from all walks of life to come up with multi-scientific strategies to effectively diagnose and treat breast cancer, and ultimately to promote women's health.

After the careful evaluation of the current global situation regarding the COVID-19 outbreak, we have decided to hold GBCC 10 in a hybrid format combining in-person and virtual programs as we cannot postpone the 10th GBCC any longer.

We will make every effort to render GBCC 10 remarkably informative and fruitful with top priority being given to the health and safety of all participants. Every invited speaker will be participating either onsite or virtually as scheduled. We will throw various social events to encourage every participant to actively network with each other, hoping that GBCC 10 will be a rewarding experience for both presenters and attendees.

We thank you for your kind understanding on our decision and for your keen interest in the upcoming GBCC.

Please stay safe and healthy until we meet at GBCC 10 next year!

We sincerely hope to meet every participant face-to-face in the near future.

About GBCC

The Global Breast Cancer Conference is a meeting of breast cancer held in Korea, started as a biennial meeting in 2007. Hosted by Korean Breast Cancer Society and supported by the Korea Breast Cancer Foundation, now it becomes one of the biggest breast cancer conferences in Asia.

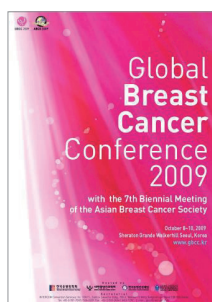

Since its successful inception in 2007, the GBCC has been one of the best learning opportunities and networking hub for those involved in breast cancer to pick up the latest knowledge from basic research to state-of-the-art therapy and to build a stronger relationship with professionals from all around the world.
